Re: Conflict Free Minerals

To Whom It May Concern:

In August 2012 the United States Securities and Exchange Commission (“SEC”) issued final rules implementing the provisions of Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“The Dodd-Frank Act”). Section 1502 of the Dodd-Frank Act imposes new reporting requirements on companies who manufacture or contract to manufacture products that use Conflict Minerals, which is defined as cassiterite (from which tin is derived), columbite-tantalite (coltan, the mineral from which tantalum is extracted), gold, wolframite (from which tungsten is derived), and any other minerals determined by the Secretary of State to be financing the conflict in the Democratic Republic of Congo and its adjoining countries (“DRC” countries).

EFINEA has surveyed our mill suppliers and determined that they do not use Conflict Minerals in manufacturing its products. This Declaration is based upon information provided to us by our suppliers of raw materials and/or components used in the manufacture of EFINEA’s products.

Please note: We currently do not file EMRT as neither Cobalt and Mica are included in the conflict minerals provision of the Dodd-Frank Act.

If you have any further questions, do not hesitate to contact us.

Sincerely,

A handwritten signature in cursive script that reads 'Ann Zanders'.
